Peloton
140 W 23rd Street,
New York, NY 10011

Dear Hiring Manager,

It is with great interest that I am applying for the Associate Product Analyst role with your organization. I have recently completed the Data Science Immersive program through General Assembly and found out about this role from my outcome's lecturer.

I bring with me the following attributes which I know will be an asset to Peloton in your current project:

- Proven organizational and analytical skills with excellent problem-solving abilities.
- Rapid adaptation to changing environments.
- Meticulous and creative approach to specification and design.
- Keen eye for detail and focus on bottom line success.
- Never give up curious attitude to determine root cause and best solution to all situations.

Possess years of experience working with data and enjoy learning about the business which empowers me to make sound business decisions and maintain business stakeholder's confidence when addressing high impact issues. I have hands on experience working with relational databases which included created and modified advance SQL scripts and stored procedures. Excellent interpersonal skills which lend to a great team member who collaborates well with others.

In addition, one of the things I enjoyed most in my previous roles was working with the Business to decipher issues brought about by program changes or user errors then successfully implementing solutions (whenever possible) to correct the problem. Working on similar tasks at Peloton along with the enormous opportunities to expand my knowledge base make this position an ideal fit for me. I am anxious to put my experience and skills to work toward our mutual success.

Should you have any questions, or wish to schedule an interview, please contact me at 516-425-5906 or email me at warrick.paulette@gmail.com. I welcome an opportunity to discuss how I will be of value to your organization.

Sincerely,

Paulette Rodrigues
